PROJECTS

DOG-Dating WEBSITE
· I developed a unique dog dating website using HTML, CSS, and JavaScript, aimed at connecting dog owners for playdates, meetups, and social interactions for their pets. The foundation of the site is built with HTML, where I structured various sections, including user profiles, a matchmaking feature, and a community forum, making it easy for visitors to navigate.

TIC-TAC-TOE
· I developed an engaging Tic Tac Toe game using HTML, CSS, and JavaScript, showcasing my skills in web development. The game features a simple and intuitive layout created with HTML, where I structured a 3x3 grid to represent the playing board. Each cell is clickable, allowing players to place their marks—either an "X" or an "O"—with ease.

INSTAGRAM-CLONE
· I developed a simplified Instagram clone using HTML, CSS, and JavaScript, which showcases my web development skills while capturing the essence of social media functionality. The project features a clean and modern layout built with HTML, where I organized the structure to include a navigation bar, photo feed, and user profiles.
